Subject: CLCM St. Francis Source Test Report - Update

Hi Manoj/Sasha-

It turns out we will not be receiving the lab data for the TO-15 analysis conducted during the September 19th stack test at our St. Francis location until October 17th. The analysis is taking longer than originally anticipated. Given that, we are planning on submitting the Final Report to you on October 23rd. Do you have any issue with this revised timeline? Please let me know.
Thanks!
